

This was our first class for the season. The students have not spoken much English, if any, during the summer and may be a little rusty.

Joyce was the group leader, assisted by Linda and sisters Simmons and Sage, two visiting missionaries from the Mormon Church, who also have ESL conversation experience.

New students attending were: Marie who is from Korea and Jing Sun from China. Our former students in attendance were Sanghee, Hyundai ju, Satoko, Yoko and Young hye.

Linda distributed forms the new students completed to tell us something about themselves. Several of the students also completed forms for GPLC. At this point we are uncertain whether or not we will accept discussion-group materials from GPLC since that will put our students off the list to get a one-on-one GPLC tutor. The Planning Committee will have to discuss the implications and make a decision.

Students discussed what they did over the summer. The main discussion topic was American Holidays and the students discussed those as well.
