Class # 28

7:00 P.M.

October 11, 2017

Volunteers: Linda* Elizabeth Ruth

Students: Yoko, Rainbow, Marie, Jing sun, Guosheng

Discussion Topic: Your Best Day

Linda's Notes:

Picking the "best" day was hard, so we moved to talking about "a" good day or meaningful day. They were better with that. Most of the women talked about childbirth and seeing their new baby as being an important day in their lives.

Guosheng said the day he was able to help his father make money was a happy day for him.

Rainbow shared with us that she had learned that morning that her mother has breast cancer. Her mother is in China. Everything was so new that she didn't know what to think yet. We tried to comfort her and tell her that advances have been made in medicine. I think she knew that we all were concerned for her.

Elizabeth did a nice job of leading us in a new direction when the time was right. We started talking about our dreams are for the future. We then read a story and did some pronunciation work.

Class ended about 8:40.
