

Conversation Friends

Class # 33

Tuesday, October 24, 2017: 10a.m. to noon

Volunteers: Sylvia\* Charlotte Joyce Sister Sage Sister Dixon

Students: Hyunju, Satoko, Guosheng, Yoko, Natalia,

#### Sylvia's Notes:

The students seemed relaxed and we had some amusing comments/contributions.

We talked about animals using the Blessing of the Animals flyer to identify the animals on it.

We shared information and pictures of our pets, each student having to say two things about the pet.

Each student named their favorite animal. Each student named an animal that they were scared of.

We did pronunciation practice using a passage about pets.

I went over the survey questions and the students didn't ask any questions or ask for any help.

Hannah took the three students one by one and evaluated them.

#### Joyce's Notes:

Hannah tested the three students. Hyun ju tested so high that Hannah is going to come back and test her some more. She explained that Hyunju will be lower on the priority list because she is so high and she is not a permanent resident. I did not know that this was part of the criteria. Satoko was average and Guosheng was much lower.

They liked Sylvia's teaching; it was simple and clear and she went around the room with questions and answers. She used the flyer for the Animal blessing to start a conversation about animals.

Sylvia went over the survey questions and they seemed to understand. However, Natalia had left and missed this - she is the one who I worry about. Maybe she could be asked on Thursday if her husband can help her. There was a little confusion about what "on line" meant. We needed to explain that it meant the survey will be coming on their computers through e mail.

Yoko said that she wants to attend the blessing but her dog barks - I said to not worry but come.
