

Attendance: Marie, Jing Sun, Rainbow, Yoko

Volunteers: Linda and Elizabeth (leader)

Linda's notes:

We played valentine bingo, which we did not get to last week. Each student took a turn reading the word that had to be matched on the bingo card. It was just a fun, warm up activity.

Elizabeth introduced the subject of fake news and she talked about some of the causes for it. She asked the students to listen for certain things before she read to them from the newspaper. After she read a couple of paragraphs she asked them questions about what they had heard. Discussion followed about how to determine what is fake news.

We then talked about what our rules would be if we were queen. Marie would make health care affordable. We discussed the health care systems in Korea, China and Japan. We ran out of time and the class ended at 8:45.
